<b>PIC Australia Pty Ltd Pre Trial Checklist</b>	

**Project Title:**

**Approval Number:** \_\_\_\_\_

Have there been any health or production issues at the breeder unit that might affect the suitability of the incoming pigs for the trial? (farm manager to check with breeder unit manager). If yes please describe:

YES

NO

Describe:

What is the routine dosing program (medications, supplements or additives) for piglets at the breeder unit prior to arrival at the farm?

Describe:

What is the routine dosing program which will be in place before or during the trial period for the involved animals (farm manager to list or provide a copy attached to this form). Will the pre-trial treatments have any effect / influence on the outcome of the proposed trial:

Describe:

I have reviewed the trial's housing and environmental requirements. These requirements can be implemented in the way described. If No, please discuss with the principal investigator to find a suitable alternative.

YES

NO

Describe:

The principal investigator has had a meeting with me about the proposed trial and I am satisfied we can deliver results with the current set up and pre trial history of the incoming pigs. If No, what needs to be done

YES

NO

**Farm Manager/Farm Vet:**

Name: \_\_\_\_\_ Signed: \_\_\_\_\_ Date: \_\_\_\_\_

I have reviewed the diets and the routine dosing program listed above by the farm manager and I don't think they are likely to impact the trial results/interpretation. If there is a possible impact, I will consult with the farm vet and/or farm nutritionist.

No impact

Possible impact

--

I have had a meeting with the farm manager about the proposed trial and I am satisfied we can deliver results with the current trial given the pre-trial history of the pigs and having met the trial's housing/environment requirements (Y/N option)
